Diploma In Early Childhood Education

The course provides the participants with a strong foundation of the key principles of early childhood education. It introduces the aspects of the child's growth and development, the conceptualization of learning, characteristics of effective learning, play-based and child-centred approach to learning, discusses pedagogical practices for all-around and holistic child development.

The Diploma program includes the following subject areas:

- (1) Development Matters
- (2) Theories in Education
- (3) Contemporary Approaches to Early Childhood Education
- (4) Pedagogical Practices and Teaching Methodologies
- (5) Observation, Documentation and Assessment

The distinct feature of this course is the internship (hands-on experience) of 4 weeks.

During this course, the candidate has completed online sessions for 8 week - 2 hrs/week

4-week internship (local) plus independent work of 50 hours.

Duration: 14th June 2019 - 06th Sept 2019
